I OPPOSE THE DRAFT M.O.U. being proposed by the FDA. In particular, I OBJECT to the definition of "inordinate amount" which restricts the availability and the right to obtain medically necessary compounded medications by limiting the number of prescriptions that can be shipped across state lines from specialized compounding pharmacies.

COMMENTS: I oppose this proposal because
I do not want large drug companies
controlling my choice of medication!
I have used compounded HRT,
and presently use it and have
never felt healthier, with absolutely
no side effects. Gen-Pro cannot
make that claim!! If the drug
companies were smart, they'd get into
the compounding business, but that
would be to the benefit of the consumer
and would be cost effective, so they
want to crush the competition. Please
don't let that happen.
